

As a resident of Connecticut I strongly **OPPOSE S.B. 16 and H.B. 5416** all they will do is **infringe on our rights. We are responsible gun owners who fallow current law. Yet we are threatened and punish for it. But the criminals who illegally acquire weapons are free to keep doing so. All this does is hurt the good guys who just want to feel safe in public knowing that there are criminals with weapons freely roaming the streets of Connecticut! Go after them and leave the Good ones to practice the sport they love so much! Be for the people not the criminals which this bill doesn't go after !!**
